"Hamond," on account of their hardness and brilliancy. The SCIENTIFIC PRINCIPLE on which they are constructed trings the core of center of the lens directly in front of the are, producing a clear and distinct vision, as in the natural, healthy eight, and preventing all unpleasant sensations, such as glimmering and wavering of eight diminess, etc., peculiar to all others in use. They are mounted in the finest manner, in frames of the best quality, of all materials used for that purposes. Their faigh and durability cannot be surpassed.
